Dear Mr. Fattal,

In Germany Fattal Hotels Ltd. manages several hotels under the brand Leonardo.

With approval of the management of one of these hotels, the Spreewald-Inn-Hotel in Massow/Brandenburg, a memorial stone for the "Wachregiment F.E. Dzierzynski" (guard regiment named F.E. Dzierzynski) was put up some time ago.

During the 40 years of SED-dictatorship in the former GDR this guard regiment was the armed wing of the Ministry of state security (MfS = Stasi). Many thousands of violations of human rights are attributed to the MfS and the head of the MfS, Minister Erich Mielke, was condemned for double murder by force of law after the wall came down.

On the basis of a close solidarity of the party and government leadership of the former GDR to the PLO the activities of the MfS were also substantially directed against the state of Israel.

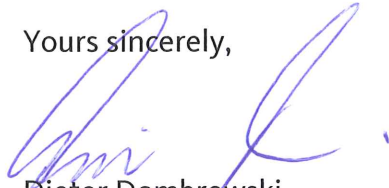

Zionism was classified as a mode of terrorism by the SED and the government of the former GDR.

Despite the fact that the GDR, which was a state of injustice, went down nobody should have the possibility to deride the victims and to defend or justify the perpetrators.

I would like to ask you to take note of this event in Massow and to evaluate it in your group of enterprises.

Yours sincerely,

Dieter Dombrowski
Chairman of CDU group

PS: Please allow me to point out that 7 members of my own family were victims of the "Stasi".
